TECHIVE

Fast pace your growth

About Techive

Time has evolved and so have we. Being a content centric company in the hay days we have come a long way to developing websites and mobile apps for our ever evolving clients. At Techive we undertake all sorts of projects pertaining to education, publishing, content development, websites and mobile app development. Having been in the industry for more than 10 years we have interacted with different people and worked on varied domains.

Evolving with time and technology forms the core of our company's work policy. We have developed children's books, illustrations and layouts, higher education books for professional courses and books for general reading, books for government supply among others. With technology becoming an integral part of education; e-books, animated CD's, Mobile apps and websites have become a necessity and Techive does all. Once through with the client's requirements we can provide a complete development and technical support encompassing websites, mobile apps, ready to print books, e-books and Animated CD's which can be uploaded on websites and mobile apps. To top it up get your content marketed digitally and get ahead of the competition.

At Techive we always strive to add value to our client's product suite and aim to make each day better than before.

Websites

Get online and let the world see your offerings. Don't restrict yourself to traditional ways of promotion, make your presence felt in the online world through the most effective way that is website. Unfold your requirement as simple as a home page to a complete e-commerce portal and we will develop it for you. Right from purchasing the domain and getting your website live we do it all. So, just sit back and see your business grow. Catering to different industries such as Publication, jewelry, printing, etc. We have provided web solutions to a lot many and who knows you can be our next satisfied client.

Mobile Applications

Mobile apps for your business needs is the new talk of the town. A reporting mechanism for your staff or a customer centric product showcase, you can do it all through a mobile app. Let not time fly, make the use of most advanced and easiest way of getting in touch with the people who are important for you. Get your app developed and uploaded on the play store and reach out to the world.

Digital Marketing

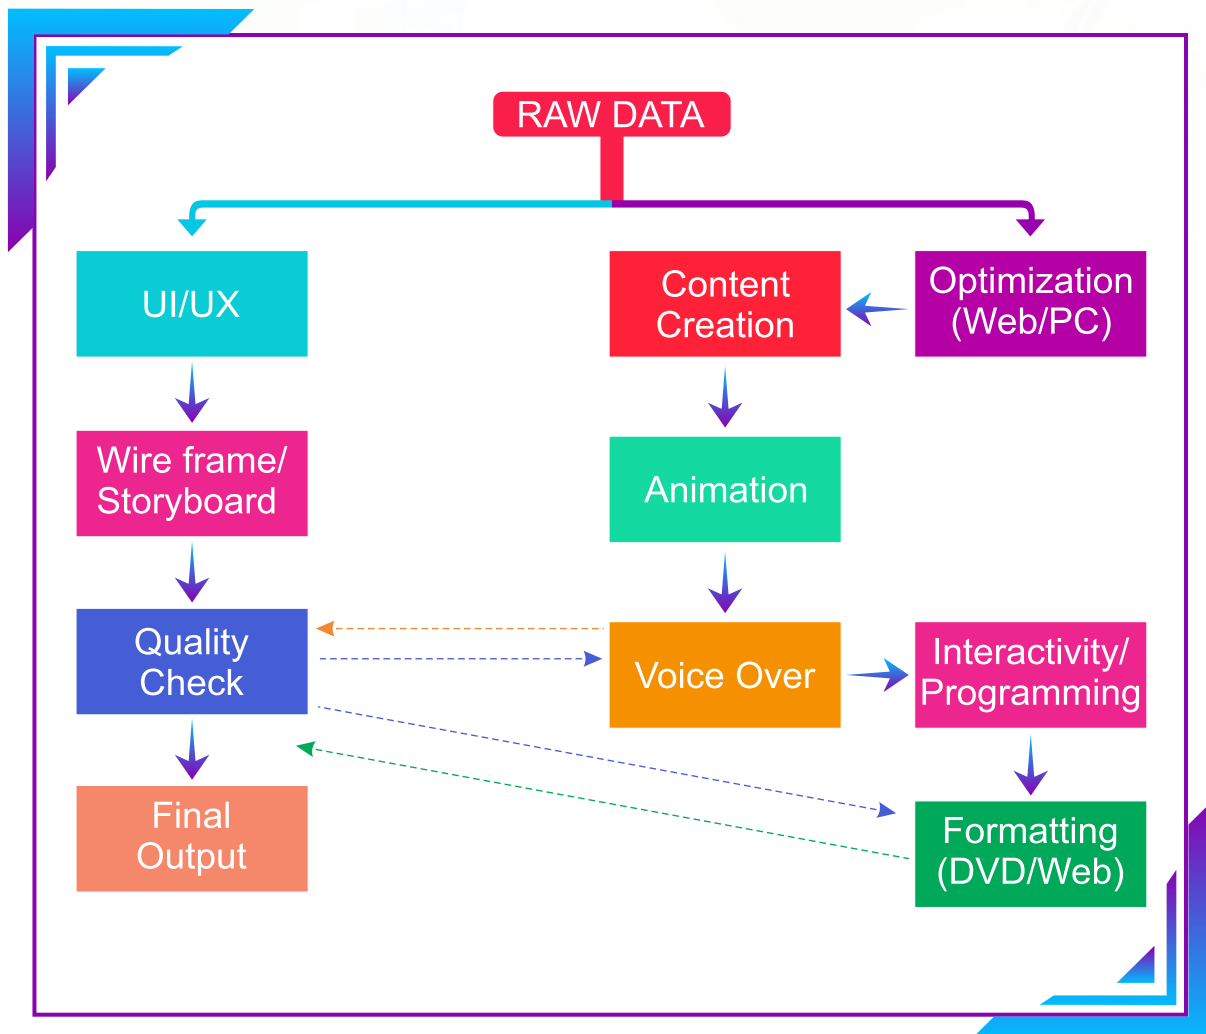

Digital marketing is the most effective, efficient and necessary tool to make your presence felt on the web. In a **2017** survey done by KPMG, the online global ecommerce area is now valued at USD\$**1.9** trillion. The average number of online transaction per person, per year in Asia is **22.1**. To stand out in such a saturated market, digital marketing has become of utmost importance. Digital marketing strategy clearly defined and implemented helps you catch the eye of the audience, convert visitors into leads and leads into customers, help generate repeat sales. You can clearly see your website move up the rankings and can have strong presence on various social media platforms and much more.

Animation

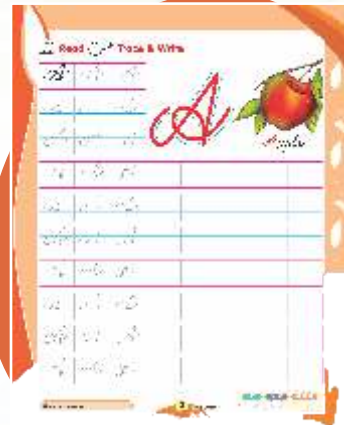

Seeing is the new process of learning. Let the children learn their text through animated characters and make learning a hobby for them rather than a burden. Animation is not only meant for enjoyment instead it is a strong and an effective medium to communicate a message, bind your audience, make your webpage attractive by using animated logos and let your books speak on their own through animated flip books.

Content

Techive provides emphatic content development services for publishers of various genres as well as digital media content for websites and blogs. The vividness in our team allows us to develop books ranging from a simple single level reading book to a complete series of books pertaining to a specific syllabus which might include text books, work books, activity books, etc. Just mail us your requirement to get a glimpse of what all we can do for you.

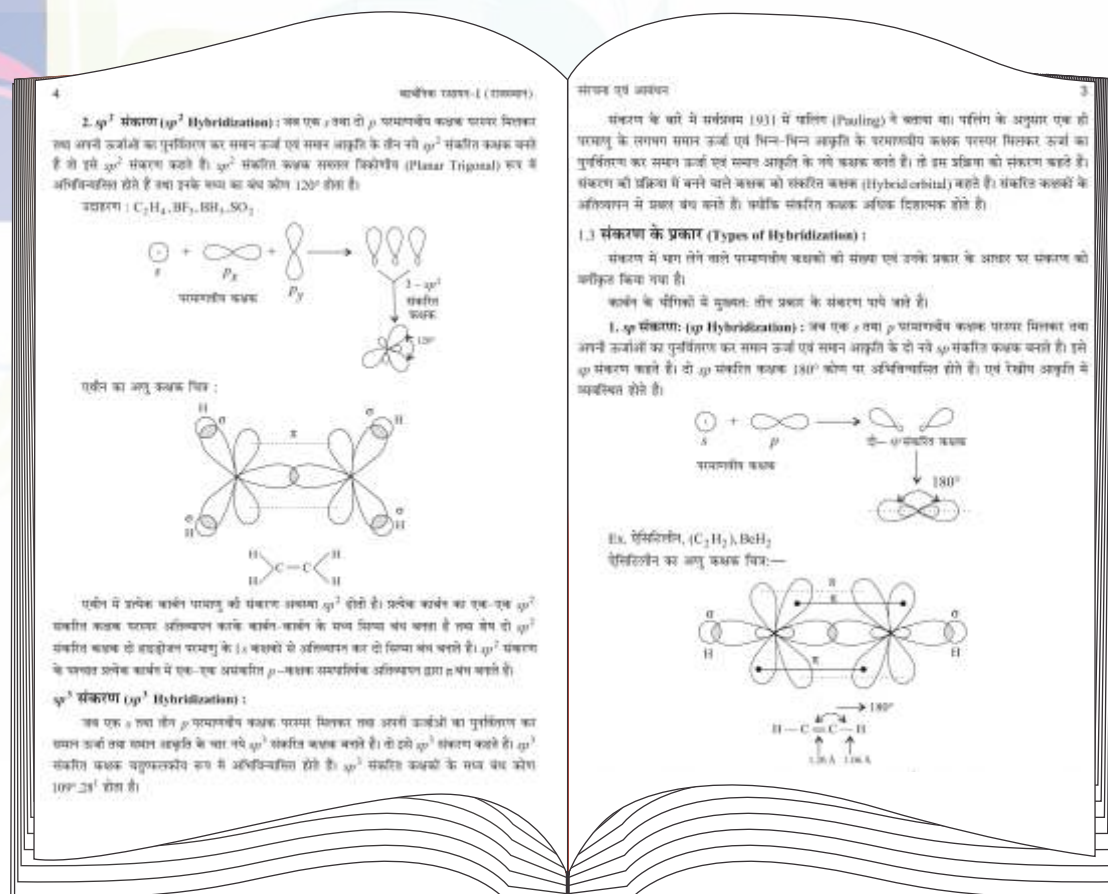

Arts And Illustration

Want to enhance the look of the content, compliment it with colorful illustrations and artwork to best define your content through pictures.

Higher Education

With variety in subjects and syllabus and varied demands we can provide you all; text books, help books, books for government supply, distance education material among others.

Production

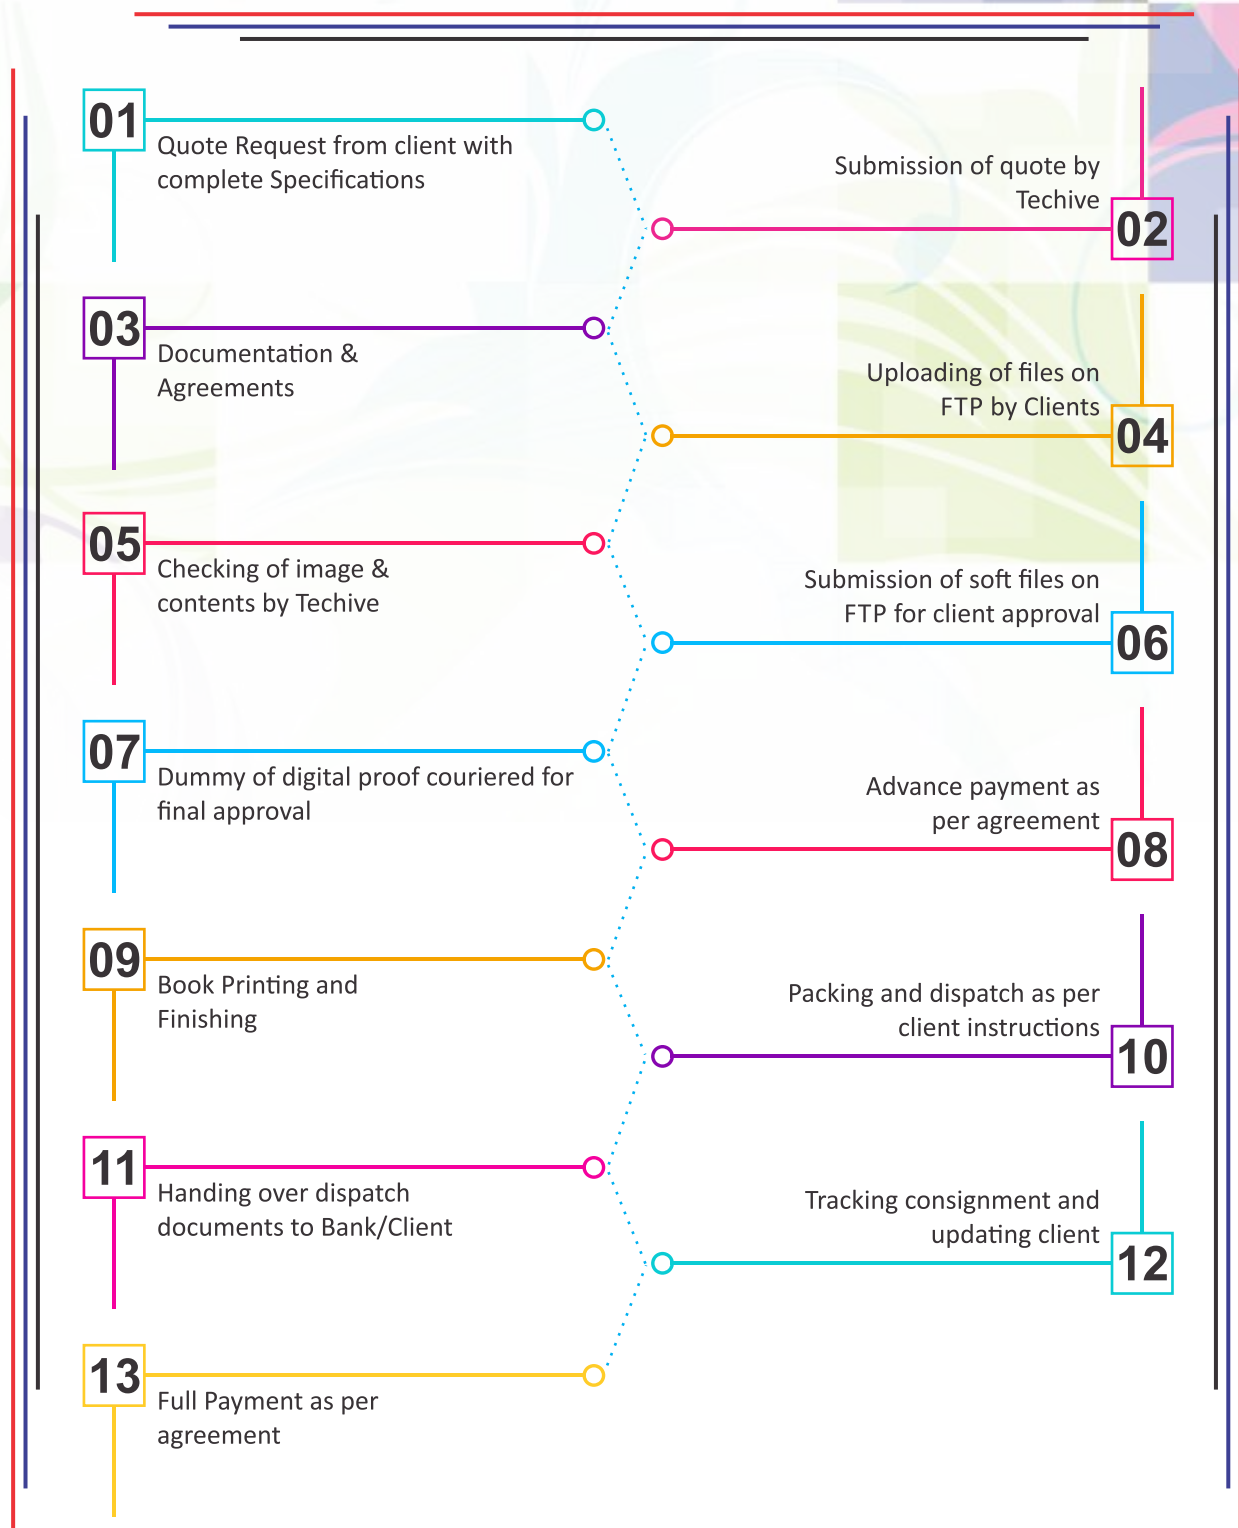

Print on demand or the printed books in quality and numbers of your choice. Our quality control section ensures the quality and quantity of the products before we ship to the customers.

Content For Digital Media

Make your presence felt in the virtual world, get in touch with our experts to provide you with most hard hitting blogs and articles to feature in your website updates.

Design And Development

Not only content development but complete design and development of the book to provide you with a ready to print CD of the book.

Flip Books

What the children have in their book the same is on the board. For teachers gone are the days of dictating notes and turning your back towards the children, just use a pointer and explain each concept in the most thoughtful manner. Get your Pdf's converted to interactive flip books and enjoy the new way of reading.

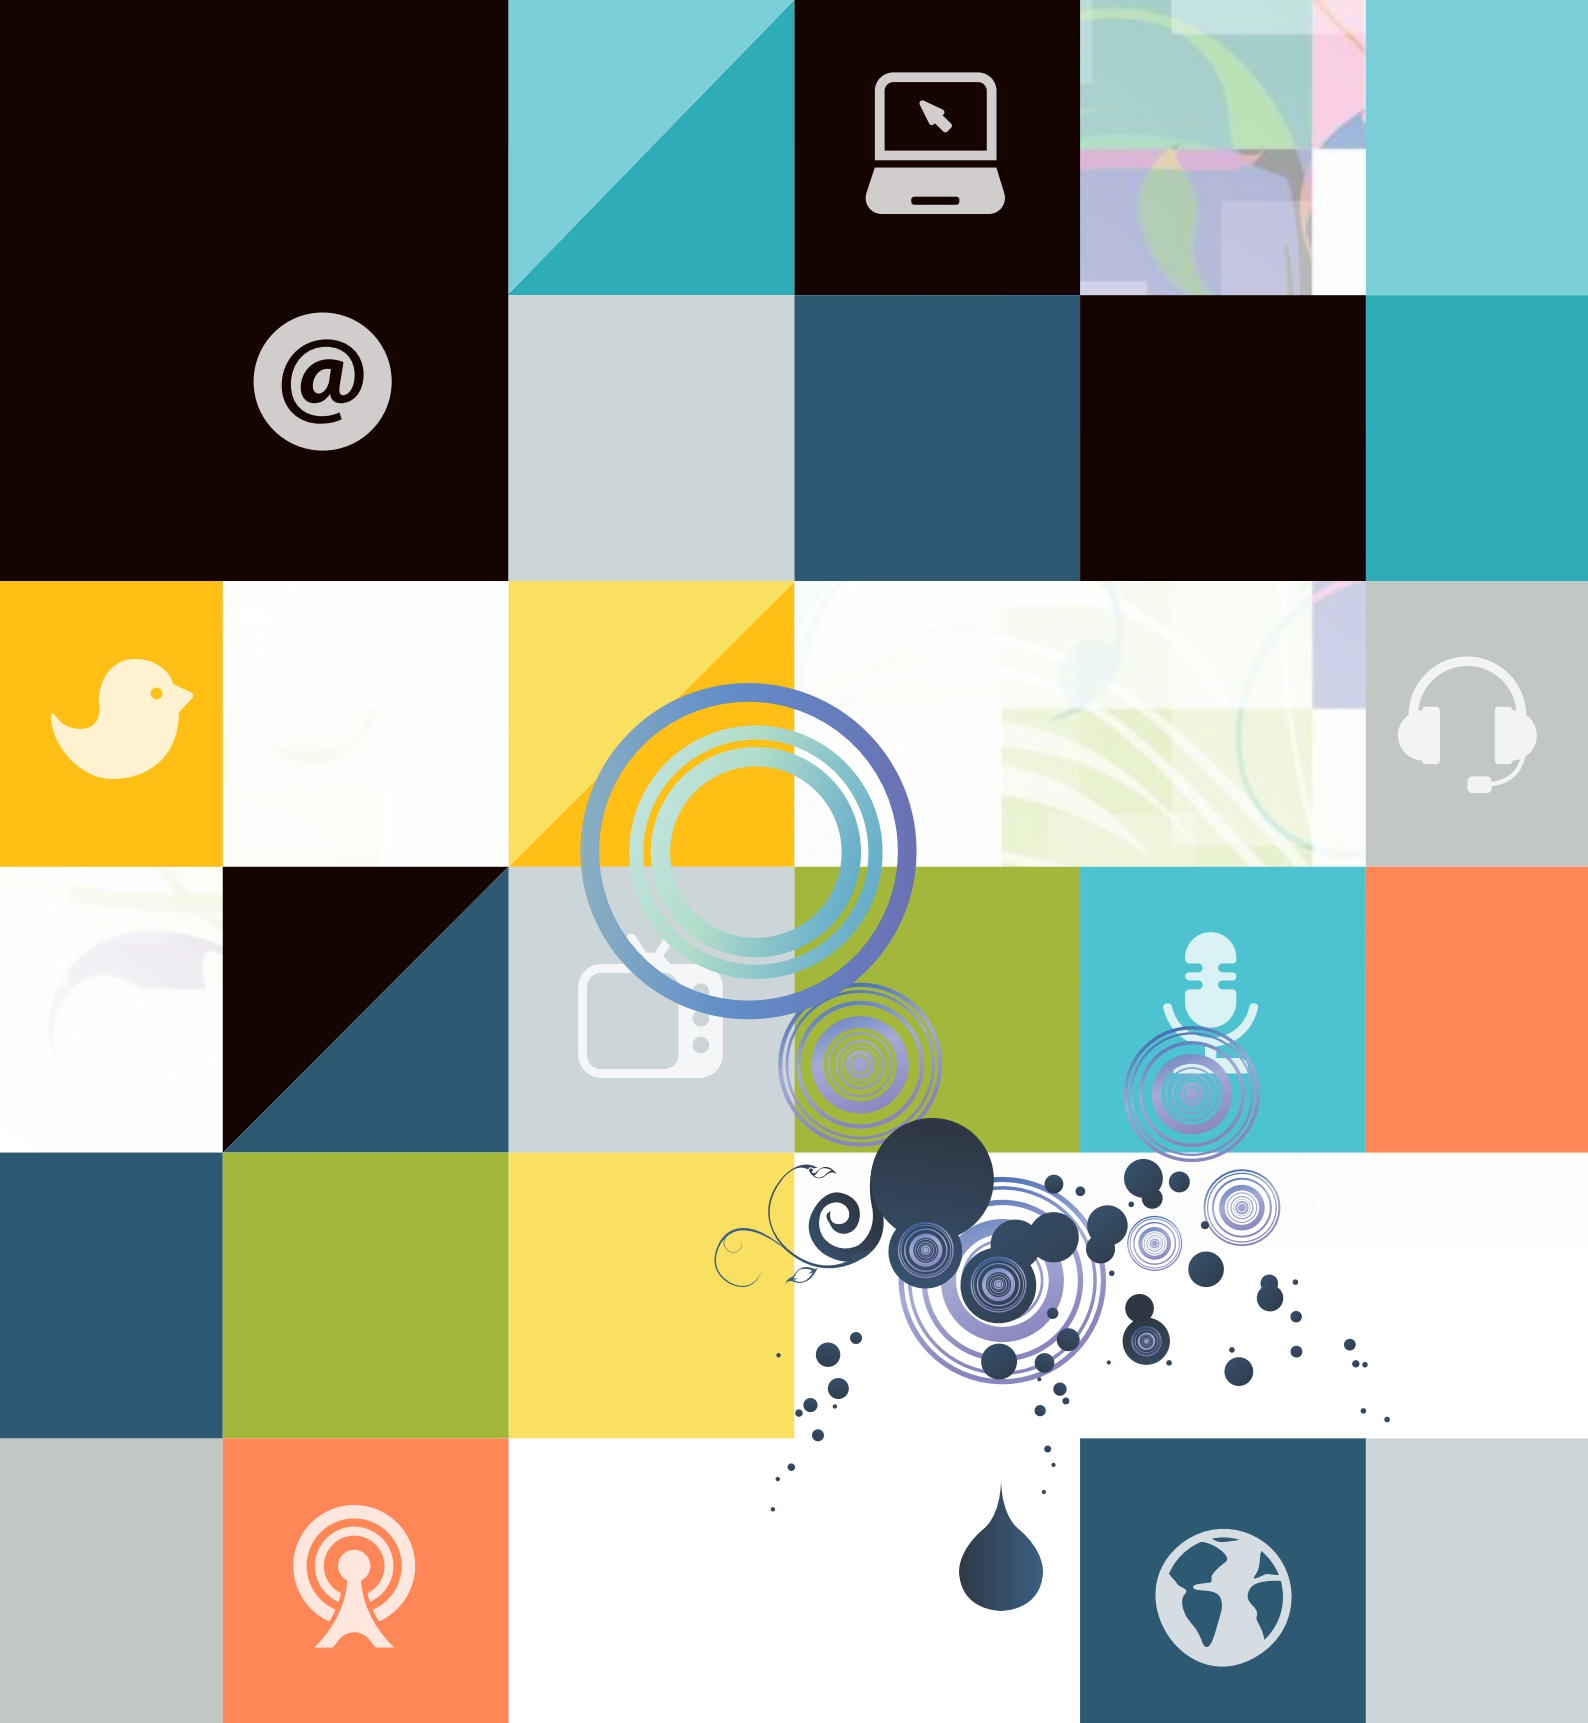

Advertisements/banner

Catch the eye through a targeted advertisement or a banner. Run it on your website or other popular websites and reach the masses using the most cost effective medium.

Animated Logos

Let your website do the talking. Put an animated logo on the front page and hook your audience to unfold the mystery of how each layer in your logo moves and glows.
